SDVMA Recognizes Member Contributions at Annual Meeting

Dr. Steve Tornberg receives Distinguished Service Award — Dr. Dale Miskimins named Veterinarian of the Year

The South Dakota Veterinary Medical Association held its 128th Annual Meeting at the Ramkota Convention Center in Sioux Falls August 11 - 14. The meeting included continuing education opportunities for over 200 veterinarians and veterinary technicians, and included the annual membership meeting. SDVMA also presented various awards at the meeting to recognize the commitment to, and excellence in, veterinary medicine in South Dakota.

Distinguished Service Award
The Distinguished Service Award is awarded to honor an individual who has brought distinction to the veterinary profession through his/her devotion to the care and well-being of animals, support for the profession, and contributions to the community. This individual exemplifies the profession, both personally and professionally, through support of veterinary medicine, research, colleagues, and/or students and through civic participation. This individual’s contributions have advanced the profession and serve as an inspiration to veterinarians and the clients she serves.

Dr. Steve Tornberg of Harrisburg was the recipient of the 2019 SDVMA Distinguished Service Award. Dr. Tornberg graduated from Iowa State University College of Veterinary Medicine in 1979. After completing his internship at Littleton Large Animal Clinic in Little, Colorado, he knew he wanted his own large animal practice where he could focus on horses. He returned home to South Dakota, and he has been doing just that since May, 1981. Dr. Tornberg’s practice focused on treating, breeding, and working with horses at the Dakota Large Animal Clinic.

Dr. Tornberg is considered to be among the best in his area on equine issues. As one nominator notes, “His body of work with horses speaks for itself.”

In addition to his professional achievement in veterinary medicine, Dr. Tornberg served various roles on the SDVMA Board, including president. He was named the 2013 Horseperson of the Year. He has served as an SDSU extension associate on issues and has served as an expert witness in equine cases.

Dr. Tornberg and his wife, Kit, have been staples of the SDVMA for years, by attending meetings and helping in any way needed to help promote the organization and the profession. He officially retired from practice in the last two years. In retirement, Dr. Tornberg continues to enjoy fishing and spending time with his children and grandchildren.

Veterinarian of the Year
Dr. Dale Miskimins of Elkton, is the recipient of the 2019 SDVMA Veterinarian of the Year Award. This award is made annually to an SDVMA member who has contributed significantly to the profession and serve as an inspiration.

Upcoming SDVMA Meetings
- West River Veterinary Medical Association: February 1, 2020; Ramkota Inn, Rapid City - Companion animal topic.
- SDVMA Summer Meeting: May 28-29, 2020; Cedar Shore Resort in Oacoma - Wet lab, CE topics; industry updates.
- SDVMA Annual Meeting: August 16-19, 2020; Ramkota Inn, Rapid City - Large and Small animal topics.

Annual Meeting (Continued on page 3)
Greetings from your President
Dr. Ethan Andress

As I drove to our annual meeting in Sioux Falls, I was in awe of the green across the entire state. We are still haying and harvesting in western South Dakota. Even in September, the prairie is green and the mosquitoes are thick. Like everyone in agriculture, we are nervously watching the markets and trying to see the opportunities, and avoid the challenges that result from this adversity.

As the new SDVMA President, I have had several people ask how a North Dakota veterinarian becomes the South Dakota President. The obvious answer is persistence. Since Dr. Baus, in Redfield, pushed and pulled me to my first meetings in 1997, I have made the association part of my life. The reality is that I am a South Dakota boy from Perkins County, still living in South Dakota. I am a proud third generation South Dakota State University graduate. By chance of design, the railroad dropped towns across the northern border of South Dakota and southern border of North Dakota. Where those towns were built is where the people stayed. Our practice serves a large radius including six counties in North Dakota and six counties in South Dakota. I spend most of my time serving the cattle and bison producers of Perkins, Harding, and Corson County. Our mixed animal practice employs five full-time and two part-time veterinarians.

From my first involvement with the association, I have had the privilege of witnessing the previous two generations’ passion for our profession. I have been given the gift of seeing the value of organized medicine not only as a tool to accomplish change, but also as a support system for our members and profession.

Exciting things are happening for our state, profession, and association. I had the honor of representing you at the ribbon cutting ceremony of the new ADRDL in Brookings in August. SDSU is developing a veterinary program in cooperation with the University of Minnesota. Our organization is implementing a Power of 10 Program for young veterinarians to help in leadership development. Additionally, our association is showing sparks of life from our inspired younger members. My goal is to use their energy to build on our previous success, and help share our respect and passion for veterinary medicine.

Thank you for giving me the opportunity to serve you and organized veterinary medicine. I will do everything I can to represent you well and share the passion and respect for our profession that you have shared with me. My experience is that most of us are looking to be involved, sometimes we just need a little push or pull. I accept it as my responsibility to push and pull those around me to become involved. I hope you will do the same.

Notes from your Executive Director
Jennifer Stalley

It is time for another change in seasons, with summer giving way to fall on the calendar. The weather has not quite caught up with the scheduled change, but I doubt there will be many complaints about that after a slow to start summer.

This time of year also brings change at the SDVMA. Our new president and officers officially took the reigns at the conclusion of the annual meeting in Sioux Falls. We are happy to welcome Dr. Andress to the role of president. He, along with the other officers, have great ideas for how we can keep the SDVMA a strong membership organization for our longest and newest members alike.

Leading the way for new projects this season is the implementation of our Power of 10 program. SDVMA will be reaching out to members who expressed interest in being part of the program to network our newest practitioners together to discuss a variety of topics relevant to their careers. If there are new veterinarians in your practice who are interested in working through the challenges and opportunities of starting in practice, encourage them to contact SDVMA. This is an excellent opportunity!

A change on the horizon for 2020 for SDVMA is a modification to our annual meeting dates. To avoid the congestion (and high cost) of meeting during the 80th Sturgis Rally, we will hold the 2020 annual meeting from Sunday, August 16th to Wednesday, August 19th. Please be sure to note this change on your calendars so you do not miss the annual meeting.

SDVMA will continue to work on opportunities to improve how we can serve our members. With a diverse membership, there are options to provide services that enhance membership for our members across the spectrum. The best way for your association to serve you is to hear from you about what you would like to see offered.

Please let us know what we can do to better serve you, our member.

I would be remiss if I did not acknowledge the loss of Janice Kampmann after a short, but intense bout with lung cancer. Like so many of our long-time members, Janice is part of the historical fabric of SDVMA. She kept the association going through the transition between countless presidents and a handful of executive directors. She was a constant for SDVMA and she served it well. Janice is greatly missed, as a colleague and a friend.
organized veterinary medicine and to the animals and clients he serves. The award recognizes a member for service and accomplishments benefitting the profession of veterinary medicine.

Dr. Miskimins graduated from Iowa State University, College of Veterinary Medicine. After veterinary school, he worked in a large animal practice in central South Dakota. He returned to Iowa State University to complete a residency in diagnostic pathology in 1985. He returned to South Dakota in 1991 and heads the necropsy section at the Animal Disease Research and Diagnostic Laboratory at SDSU, where he remains today.

Dr. Miskimins stands out in our profession for his passion for service to other veterinarians. As one nominator noted, “I have been in the laboratory with no other pathologist who has been as actively involved in seeking answers to complex problems.” Another nominator noted, “Dr. Miskimins has been on the forefront of technological advancement in veterinary medicine and has been eager to share his knowledge with anyone who needs it.”

Dr. Miskimins’ willingness to go the extra mile for the clients he serves and for veterinary medicine make him a perfect example of what it means to be the SDVMA Veterinarian of the Year.

Emerging Leader Award

The Emerging Leader award is made to an SDVMA member who graduated from veterinary school in the last 10 years and has displayed outstanding accomplishments in veterinary research, private practice, regulatory services, civic activities, and/or organized veterinary medicine. This award is intended to recognize the immense talent we have entering the profession in our state.

Dr. April Schilder of Highmore, received the 2019 SDVMA Emerging Leader Award. Dr. Schilder has poured her heart and soul into the Prairie View Vet Clinic. She has taken on a role of veterinarian, administrator, HR person, and much more in the practice to make it successful. She recently took on work as the Fort Pierre Livestock Market Veterinarian. She has been a great addition to her community and our profession.

Outstanding Veterinary Technician

The Outstanding Veterinary Technician award is made to a registered veterinary technician who has provided outstanding support to veterinary medicine through dedication to the care and well-being of animals and professional knowledge and execution in service to the profession.

Kim Hunt was named the 2019 SDVMA Outstanding Veterinary Technician. She graduated from the National American University, Rapid City, in 1991. She worked in Nevada for several years before moving back to South Dakota. She joined Horizon Pet Care in 2010.

Kim’s mission is to help people and animal. According to her colleagues, she is constantly stepping up to help, coming in on weekends and after hours to make sure the animals and owners have what they need. She has unlimited patience and equally unlimited energy. When Kim is not at work, she is a wife and an active mother of 2 children.

Life Members

Drs. Ron Good, Parker; Ken Shaffer, Lennox; Craig Hansen, Howard; Dale Miskimins, Elkton; Kay Burkhart, Valley Springs; Tom Heirigs, Madison; and Michael Dickman, George, IA. Life members have attained the age of 65 and have been members of the SDVMA for at least 20 years.

Bill Davis Award

Mike Palmer of Sturgis, Animal Health International, received the 2019 SDVMA Bill Davis award. This award is given annually to a sales representative of a veterinary supply company who has demonstrated an unusual degree of service and assistance to veterinarians and the veterinary profession in South Dakota.

Mike’s reputation in the industry is excellent. He is known for going the extra mile to get product information, products, and competitive pricing to his customers. He commonly rearranges his schedules to meet his clients’ needs and is always professional.

Mike and his wife, Christie, have two boys, Jeremiah and Jacob. He enjoys shooting and fishing when he is not working to make our work easier, as veterinarians.
Thank you to everyone who attended the Open House for the SD Animal Disease Research and Diagnostic Laboratory (ADRDL) on Friday, Sept. 6th! We appreciate the SDVMA support and appreciated Dr. Ethan Andress’ presence on the ribbon cutting line as SDVMA President!

If you were not able to tour through the building at the Open House, we would be glad to arrange another time. Please contact Rita Miller at (605)688-5171 to set this up. The “official” move into the new addition will most likely take place in early November, due to further commissioning that needs to be completed. The renovation of the current building has already started and is hoped to be finished by this time next year.
In Memoriam

Dr. Thomas B. Ludgate

Thomas B. Ludgate, 98, of Sioux Falls, SD and formerly of Flandreau, SD passed away on Easter morning, Sunday, April 21st, 2019 at the Good Samaritan Village in Sioux Falls, three months from reaching 99 years. Thomas was born on July 23, 1920 in Fort Dodge, IA to Francis Ludgate from Downpatrick, Ireland and Josephine Butler of Fort Dodge. After graduating from Corpus Christi High School, he followed in his father’s footsteps and studied veterinary medicine at Iowa State University, graduating in 1943. In 1944 and having to borrow twenty dollars for a bus ticket, Thomas ventured to Flandreau, never knowing his summer stay would become a lifetime.

In 1947 he entered into a partnership with Harry Halverson that lasted until 1962 when Thomas Jueschke joined the practice. Thomas was united in marriage to Ruth Schulte of Flandreau in June 1952. Together they raised four children.

College and then Wyoming State University in Laramie, Wyoming. He entered vet school at Colorado State University Veterinary College in Fort Collins, Colorado, and graduated in 1962 with his Doctor of Veterinary Medicine degree. Dale worked briefly for the USDA out of Cheyenne, Wyoming, then in Casper, Wyoming, with two other veterinarians before moving to Rapid City, South Dakota, in 1964 to work for Norris Veterinary Hospital. Dale started his own veterinary practice, The Animal Clinic, in 1969 and served large and small animal clients until retiring in 2003.

Dale met and married the love of his life, Alice Archie, in Wheatland, Wyoming, on November 2, 1963. After settling in Rapid City, they raised three children together, Shelley, Robert, and Roy. Dale was very involved in his community. He started the Black Hills Roping Club, participated in the New Underwood Roping Club, and was a lifetime member of the Western South Dakota Buckaroos. Dale was honored for his support of youth organizations such as 4-H and FFA.

Grateful to have walked life’s journey with Dale and saddened by his passing are his wife Alice and sons Robert (Jodi) Hendrickson of Millsap, Texas; Roy (Christi) Hendrickson, Caputa, South Dakota; grandchildren Seth (Katie) Caldwell, Ari Rayne Hendrickson, Ollie Grey Hendrickson, Scout LaRue Hendrickson; sister Carol (Richard) Bales of Fort Washakie, Wyoming, and many nieces and nephews.

Dale was preceded in death by his parents, Roy and Viola Hendrickson, sisters Ilene June Villalovos, Lola Mae Schaefer, daughter Shelley Vonne Hendrickson, and brothers-in-law Cecil Villalovos, James Archie, and Leonard Archie.

Janice L. Kampmann

Janice Kampmann of Elkton, SD died on Monday, August 26, 2019 at Dougherty Hospice House in Sioux Falls, at the age of 65, after a short intense bout with cancer. Janice was born on February 24, 1954 to Marvin and Marilyn (Stoltzenberg) Oppelt. She grew up on the family farm in a large, loving family with three sisters and two brothers. She graduated from Elkton High School and Nettleton Business College. On August 4, 1973, Janice married Douglas Kampmann, and they celebrated 46 years of marriage before her passing. Early in their marriage, they spent three years in Oklahoma before returning to South Dakota in 1976, where they raised their own four children on the same family farm near Elkton where Janice had grown up.

Janice worked part-time as a typesetter at the Elkton Record newspaper for 13 years while raising their family, before taking a part-time position as a secretary at South Dakota State University for the Dean of College of Ag/Bio Sciences, where she remained for six years. She then worked as a secretary for the Veterinary & Biomedical Sciences Dept./ADRLDl, the SDVMA, and the IACUC, where she worked for another 24 years and retired in February, 2019.

Janice had been enjoying her recent retirement from SDSU, but not being one to sit idle, she had recently begun a new part-time position with the City of Elkton, still leaving time for some traveling, gardening, golfing, (continued on page 6)

Dr. Dale Roy Hendrickson

Whether you knew him as Doc, Dale, or Dad, he was the same; a man filled with integrity, kindness, and strength who served others faithfully all the days of his life. Dale Roy Hendrickson entered into the peace and presence of the Lord, with family at his side, on Thursday, March 14, 2019.

Dale was born in Buffalo County, Nebraska, on March 9, 1933, to Roy and Viola (Peters) Hendrickson. The family moved to Riverton, Wyoming, when he was thirteen. Dale attended and graduated school from Riverton. During high school, Dale spent a great deal of time at the Carlson Ranch on Gooseberry Creek, Meeteetse, Wyoming. Here he was mentored by Elmer and Marietta Carlson, who taught him about ranching, work ethic, and creating lasting friendships.

Dale enlisted in the Army and trained in Texas before being shipped to Germany. After service, he enrolled at Casper

AVMA Delegate’s Report

This year’s House of Delegates Summer Session occurred just before the AVMA Convention in Washington, DC. The location afforded the AVMA a great opportunity to use the volunteer leaders of the HOD as grassroots experts on veterinary issues before the current legislators. AVMA’s Government Relations Division did a fabulous job lining up and coordinating over 200 meetings that occurred on the Hill during a 4-hour period. In addition, they provided the background information, training and support for all the delegates and alternate delegates to represent the AVMA membership on three important pieces of legislation that impact our profession.

Dr. Chase and I met with senior staff and/or senior policy advisors for Senator Thune, Senator Rounds and Representative Johnson. Unfortunately, the summer recess for both the Senate and the House had started and we were unable to meet them personally. However, we had productive meetings and received either outright support or assurances of re-examination based on the information that we provided.

The first piece of legislation we discussed was the Veterinary Medicine Loan Repayment Enhancement Act. USDA funding covers the cost of VMLRP service awards as well as a 37% federal withholding tax. That means 37% of the limited federal funding provided by Congress each year ends up going back to the Treasury, when that funding could be used to reach more underserved communities. This Act would do away with the withholding tax which would allow funding of another award for ever three that are currently given. Consistently, the VMLRP receives more applications than funding allows and the demand continues to increase. There is a precedence for exempting service awards from withholding taxes on the human medicine side. This fact was not generally known by the legislative advisors. Passage of this Act would help more rural communities gain access to the veterinarians they need to ensure animal health and welfare, food safety, prevent disease and maintain public health. Since the HOD meetings on the Hill, more legislators have stepped up as co-sponsors.

We asked the legislative staffers to oppose the Fairness to Pet Owners Act which is an unnecessary prescription mandate. This act would place onerous regulatory burdens on veterinarians when there is no indication that legislation is necessary. The vast majority of states have an explicit requirement for a veterinarian to honor a...

South Dakota Animal Industry Board — Changes to Official Cattle Identification are Coming Soon

Dustin Oedekoven, State Veterinarian and Executive Secretary

Accredited veterinarians play a critical role in traceability of livestock when an animal health disease event occurs. USDA APHIS has historically distributed official ear tags (orange OCV tags or silver “bright” tags) to accredited veterinarians to be used for recording animals subjected to official testing (such as brucellosis or TB) or when required to be listed on official documentation such as an OCV form or Certificate of Veterinary Inspection (CVI). However, this is about to change. USDA made an announcement in April 2019, outlining a plan to phase out the use of metal tags in favor of radio frequency identification (RFID, or EID) cartags on the following timeline:

- December 31, 2019: USDA will no longer distribute metal tags at no cost. Metal tags will be available for purchase on a limited basis.
- January 1, 2021: Metal tags will no longer be allowed to be applied in cattle as a form of official identification. Only official RFID tags may be applied.
- January 1, 2023: Metal tags will no longer be recognized as a form of official identification. Cattle subject to official identification (official tests, CVI for interstate movement, etc.) must have an RFID cartag.
- Only RFID tags with an official Animal Identification Number (AIN) will be considered official identification. AIN numbers issued in the U.S. begin with the numbers “840.” Other numbering systems, such as 900 series RFID tags, will not be acceptable official identification. An updated list of approved AIN devices can be found on the USDA APHIS traceability website.

Producers and veterinarians may now purchase RFID tags from animal supply companies. Producers will need a Premises Identification Number (PIN) prior to purchasing tags. A PIN number can be acquired at no cost by contacting the South Dakota Animal Industry Board. While veterinarians are not required to distribute tags to their clients, they may wish to do so. Veterinarians may become “tag distributors” and must account for tags issued to clients. Contact Dr. Susan Reenders at the AIB office for more information.

Livestock producers will have a variety of tag or device options available. Low frequency RFID tags are read at a close-range (typically within 20” of the tag), while ultra-high frequency RFID tags may be read from a greater distance. Most auction markets and other points of concentration for livestock are not yet equipped to read RFID tags and will need to consider how best to comply with USDA’s new EID policies. Consideration of the needs of the farm or ranch will need to be accounted for as well.

Please contact the AIB staff with any questions you may have regarding official identification.
(Continued from page 7) client’s request for a prescription. In the remaining states, denying a prescription is a violation of state codes of professional conduct. The AVMA’s code of ethics requires a veterinarian to write a prescription in lieu of dispensing when requested by a client. Requiring veterinarians to automatically release a “copy” of a prescription every time they determine it appropriate to dispense a prescription drug would be potentially dangerous for patients and animal owners. This act would interfere in the veterinary client patient relationship in providing optimal patient care and likely raise the costs for pet care. All of the SD legislators were opposing this act and the since the Hill visits, no other legislators have signed on as co-sponsors.

Finally, we discussed the Association Health Plans Act of 2019. This act provides the framework needed for AVMA to offer quality health coverage to employees and dependent of veterinary small business owners and sole proprietors within our profession. Initial steps to reestablish the AVMA AHP are underway in 9 states (AZ, GA, IL, IN, MT, NE, OK, TX, and WV) with hopes to add more states as quickly as possible. All of our legislators support this Act. Unfortunately, the national climate is varied on who can and how health care plans should be administered.

We also had time to talk to our legislators about the new state lab and the 2+2 program. They were all invited to Brookings and visits are already commencing or being planned. Dr. Chase and I hope to continue these relationships and be available for information pertaining to any legislation that affects veterinarians, our profession and our businesses.

Respectfully Submitted by:
Chris Chase, Delegate
Cindy Franklin, Alternate Delegate

VETERINARIANS WANTED

TRANS OVA GENETICS IN SIOUX CENTER, IA is looking for a Professional Services Veterinarian for our Onida, SD location! This position will multiply the success of client breeding programs by producing embryos from their donor cows and pregnancies in their recipient cows. Ensure disease and trauma are minimized when embryos are harvested from donors and transferred into recipients. Monitor the general health and reproductive fertility in resident cows while contributing to a positive working environment, delivering services which exceed customer expectations. You will flush and transfer bovine embryos in the clinic and on farms, perform ultrasound guided transvaginal ovum pickup procedures for bovine IVF embryo production, and review and design super-ovulation and synchronization protocols for donors and recipients. These are just a few of the job duties, to view the full job description and to apply visit: www.transova.com/careers.

WE ARE LOOKING FOR A FT OR PT talented and energetic associate DVM to join our team in beautiful Billings, Montana! Yellowstone Valley Veterinarians is comprised of 13 DVM’s across four locations, one of which is a 24/7 ER Hospital. We are AAHA accredited and have been serving the community for more than 50 years! Our small animal/exotic practices provide diverse and challenging caseloads with the tools, equipment, and outstanding staff for support. We offer a competitive compensation package including a guaranteed salary of $75,950,000 DOE with production bonus potential and CE allowance. We invest in you! YVV is dedicated to providing the best veterinary experience possible with a focus on excellent customer service and servant leadership. If you want to love where you work and whom you work with, we may be the fit for you. Billings is Montana’s largest city with a population of 120,000 but close to mountains and lakes. Billings boasts a strong economy, an excellent medical community, and big city amenities with a small town feel—perfect for the outdoorsman AND the urbanite. Contact Carey Darlington at (406) 390-6137 or email carey.darlington@nvanet.com

THE WRC HAS EXPANDED our practice into a new, state of the art building and are in need of an associate veterinarian. We currently have 5 doctors which offers excellent partners with various areas of specialty, a great opportunity for young vets to receive mentorship. We have wonderful staff and a high priority on work-life balance. The community offers excellent hunting and fishing, and an ideal location to raise a family. Our practice is 50% cow/calf, 45% small animal, and 5% other. We are a 100% haul-in clinic, except for herd work, and equally share on call duties. Our 12,000 sq.ft. clinic is equipped with cbc, chem, digital x-ray, dental machine, gas anesthesia, ultrasounds (small and large animal), hydraulic chutes and an indoor working area for cattle, equipped with a tilt table and hydraulic hoist. Benefits include: 1 week paid vacation, CE compensation, retirement, health insurance, and partnership opportunity. Contact: Victoria at 701-567-4333 or admin@westrivervet.com. Check us out on Facebook or our website.

DOES YOUR DAY FEEL EMPTY? Are you thinking you would love to fill it with everything from puppies to ducks to star quality rodeo horses? Well then you definitely need to send your resume to us!
Not only can we fulfill that need but also pay you for it. We offer a great atmosphere and mentoring team with our seasoned doctors and support staff. We support our veterinarians with superior salary, health and dental benefits, retirement, CE allowance, vacation, dues, liability coverage, outstanding practice members, and a family friendly atmosphere. We are a busy, 3 doctor, full-service mixed animal clinic that provides quality veterinary, surgical, emergency and dental services. Our paperless facilities are well equipped with quality diagnostic and therapeutic services, digital radiography, in-house Idexx lab equipment, and surgical facilities for both large and small animals. Our practice has provided experience and caring for our community for over 38 years with mobile emergency services and after-hours availability for our clientele. We are a family-oriented practice with a long history and reputation that separates us from others. Our clinic works to maintain an efficient and enjoyable work environment by focusing on the needs of our team, clients, and patients. Experienced veterinarians and new graduates interested in both small and large animal are encouraged to apply.

ALL CREATURES VETERINARY HOSPITAL, a progressive and modern companion and exotic animal practice that has been voted multiple times ‘Best in the Black Hills’, is seeking an optimistic veterinarian to join our growing team. The ideal candidate will be personable, confident, hardworking, and skilled in companion animal general practice (internal medicine and general surgery). They would have excellent client communication skills and a true passion for veterinary medicine. While not required, having very basic exotic veterinary knowledge and skills would be an asset. Our companion animal facility consists of a large reception and retail area, five examination rooms, separate hospital wards, radiology suite, laboratory and pharmacy, large treatment area, two surgery suites, and separate hydrotherapy suite. The clinic is equipped with an Abaxis laboratory (HM5 complete blood counts and four VS2 rotor chemistry machines to provide an in house full range of blood work on canine and felines). We also have digital radiography, ultrasound, laparoscopic and orthopedic surgical equipment, MRI, laser therapy, endoscope, and digital medical records (Avimark). We employ a large, amazing and experienced full time staff with two doctors, registered technicians, veterinary assistants and receptionists. They are relied upon heavily for obtaining diagnostics, performing treatments and educating clients. This allows our doctors to spend more time examining patients, interpreting diagnostics, and developing treatment plans. Our practice is open Monday through Friday and our veterinarians typically work 40-50 hours per week. We treat emergency cases if possible but refer after-hour emergencies to the local emergency clinic, depending on the case and need for care. Our small animal caseload is wide and varied – from basic wellness to involved medical and surgical cases and everything in between. Position Details: We are looking for a friendly, positive, outgoing veterinarian (new grad or experienced) interested in practicing aggressive high quality small animal medicine. Base salary is negotiable and to be determined by experience, but there is potential to earn more with our production-based bonus. We also offer paid personal leave, continuing education, professional membership dues, plus an extensive benefits package. Area Description. We are located in the beautiful Black Hills of South Dakota close to Mount Rushmore. The area provides excellent outdoor activities including hiking, camping, mountain biking, fishing and hunting, water sports, rock climbing, and many other incredible outdoor recreations, not to mention the view, which stunning year round! Rapid City has a population of about 70,000 with the surrounding area of about 130,000 and growing. Rapid City offers an array of af
fordable places to live, low crime rate, great school districts, numerous churches, and amazing community events that peak just about anyone’s interests. We also have college sporting events, a semi pro hockey team, an event center with concerts and other activities year round, including the annual Black Hills Stock Show. Please send cover letter and resume to Dr. Dean Falcon at defalcon13@hotmail.com or call (605)786-4642 with any questions.

SIGN-ON BONUS POTENTIAL UP TO $100,000! Animal Clinic of Rapid City/Emergency Veterinary Hospital in Rapid City, SD is looking for an Emergency Veterinarian. We are interested in speaking with new grads (Mentorship provided), internship trained, or experienced DVMs. We are a progressive 7 Doctor Practice that has a team-based approach to medicine and mentorship. We believe in providing high quality compassionate care to our patients and enjoy a collaborative and positive work environment with our patient’s wellbeing in mind. Our schedule encourages a healthy work life balance with doctors working 3 shifts per week and rotating Saturdays. We offer an attractive compensation, benefits package and wonderful Sign-on bonus/student loan repayment program. We have a spacious hospital with 5 exam rooms, a comfort room, well-equipped small animal surgery suite, treatment and ICU areas. Our in house lab is state of the art making our diagnostic capabilities second to none. We have digital x-ray, digital dental x-ray, pulse ox, EKG, blood pressure, IV pumps, in floor heat in cages, endoscopy, tonometer, ultrasound machine, and gas anesthesia. We are located in the Black Hills of South Dakota, close to Mount Rushmore. The area is known for hiking, camping, mountain biking, fishing, hunting, water skiing, rock climbing, ice climbing, snowshoeing, snowboarding, snowmobiling, trail riding and rodeo. If you enjoy the outdoors, you will love it here!! Rapid City has a population of 70,000 with the surrounding area of about 130,000 and is rapidly growing. The area offers wonderful affordable places to live and enjoy the outdoors, with a low crime rate, great schools, numerous churches, excellent community events such as: concerts, symphonies, theater, movie theaters, horse shows, city league sports, great fitness centers and yoga studios. We have college sporting events, and a semi pro hockey team.

ASSOCIATE VETERINARIAN - Immediate opening at a well-established, small animal clinic in Northeast South Dakota. Our practice offers laser surgery, cold laser therapy and digital x-ray. The in-house lab is equipped with IDEXX blood CBC and Chemistry, Sedivue and UA analyzer. This area is a sportsman’s mecca, with lots of fishing and hunting opportunities year round. Our clinic is located in Aberdeen, which is the third largest city in the state and growing daily. Aberdeen is located within easy driving distance of Sioux Falls, Fargo and Minneapolis and offers a charming and cultural reputation of its own. ASSOCIATE VETERINARIAN - The Montrose Veterinary Clinic is seeking to hire an additional veterinarian for our mixed animal practice. We are looking for a motivated, team-oriented new associate with a strong emphasis in food animals (dairy and beef cattle). Palpation and ultrasound skills are required. Opportunities in small animal, equine, swine, and small ruminants also exist. Our clinic has a well-equipped large animal haul-in facility that includes a hydraulic squeeze chute, tilt table, calf isolation units, portable chutes, and equine stocks. The emergency call schedule is shared equally among all veterinarians. A very competitive salary along with a benefit package is available. Truck and equipment are provided by the clinic. We welcome both experienced applicants and qualified new graduates. Mentoring is available to all new graduates. MVC is located 25 miles west of Sioux Falls and
CLASSIFIEDS

offers rural living with access to urban amenities, such as restaurants, theater, shopping, and an events center. Our area is also known for exceptional outdoor recreational activities, such as hiking, hunting, and fishing. Please send cover letter and resume to montrosevetclinic@goldenwest.net.

WANTED: ASSOCIATE FOR A MIXED ANIMAL PRACTICE in Mitchell, SD. We are Compassionate Stewards of Animal Health, where respect, communication, and teamwork are our main priorities. As a growing mixed animal practice in Mitchell, SD we are looking to add a full-time Veterinary Associate to our expanding multi-doctor practice. We approach progressive medicine as a priority, and our mentorship program provides you the guidance to diagnose and treat your patients. With an experienced and outstanding Fear Free certified support team, you will have the opportunity to provide the needed preventative care and the ability to develop your own personalized treatments. We would welcome you to visit our website and Facebook page to learn more. Clients come to us because of our reputation for excellence and compassionate care. Professionals come to work for us because we strive to provide outstanding medical care, practice in a beautiful 3-year-old facility, have an experienced fun-loving team, and understand a work-life balance. As a multiple doctor practice, our on-call rotation schedule gives you the opportunity to enjoy your life after work, but most of all have fun and enjoy every day as you grow in your skills and professional life. We provide top salaries and benefits including vacation/paid time off, paid CE, paid licensing fees, liability/malpractice insurance 100% paid, and more. Please contact Dr. David Thompson with Creekside Veterinary Clinic, at 605-990-3388 or email us at businessoffice@creeksidecares.com.

ASSOCIATE VETERINARIAN WANTED for busy equine/companion animal practice. Equine work is preventative medicine, lameness, reproduction, medicine and surgery plus some referral work. Companion animal work is focused more on preventative medicine. Emergency work for equine is necessary and split between all doctors. Small animal emergency work is sent to nearby emergency clinic. The clinic has modern equipment including digital x-rays, gas anesthesia, digital ultrasounds, endoscopy, arthroscopy, IRAP, PRP, etc. A competitive salary dependent on experience plus all benefits come with the package and is based on experience. Interested applicants can send resume to Dr. Michelle Jensen at drvetmike@yahoo.com or mail to PO Box 10 Harrisburg, SD 57032.
